DETAILED ACTION

Claims 31-61 are pending in the application; Claims 1-30 are canceled.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 31-61 are rejected under 35 U.S.C. 101 because the disclosed invention is inoperative and therefore lacks utility. In particular, regarding embodiments 10 and 90, it is well-known in the art that the electrical energy sent through cable 18 or 101 does not resonate at acoustic frequencies that, for example, would resonate in resonator 14.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 31-33,38,42,45-48,56,58-61 are rejected under 35 U.S.C. 102(b) as being fully met by VansEvers.

Claims 31-33,57,58 are rejected under 35 U.S.C. 102(b) as being fully met by Liao.
